

Cheriyam Maman

Full Stack Developer (MERN-focused application)

- **Email:** cheriyansomaman@gmail.com
- **Phone:** 07878187343
- **LinkedIn:** <https://www.linkedin.com/in/cheriyankm>
- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

Tailored for: MERN Stack Developer — Metric Tree Labs, Kochi (live opening, 2026; 1–4 years full-stack development asked — applying as an experienced candidate) *Company works across Cloud, Mobility, Strategy and Web Based Enterprise Apps.*

PROFILE

Full stack developer with 10+ years of experience shipping production web applications and REST API platforms — bringing senior engineering depth to a MERN-stack team. Day-to-day strengths map directly onto the MERN model: document/NoSQL data stores (Couchbase), Express-style REST API design, component-based front ends (Angular, moving to React), and asynchronous non-blocking backend patterns (Vert.x/Kafka — the same event-loop model as Node.js). Currently leading credit card benefit and enrolment delivery at Infosys, managing a team, incidents and the daily agile process — comfortable mentoring while staying hands-on.

KEY SKILLS (MAPPED TO MERN)

- **M — Document/NoSQL databases:** Couchbase in production (MongoDB-comparable document model); PostgreSQL/Aurora for relational
- **E — API layer:** REST API design and development (JSON/XML/YAML), Swagger documentation, authentication flows, bulk data endpoints
- **R — Component-based UI:** Angular 4 production dashboards (global healthcare client, 50+ hospitals), JavaScript, TypeScript, HTML, Highcharts; familiar with React's component/props/state model
- **N — Async, event-driven backends:** Vert.x non-blocking microservices and Kafka event streams — directly transferable to Node.js
- **Engineering practices:** TDD/BDD (98% coverage), Git/Bitbucket, Docker, Kubernetes, Jenkins CI/CD, SonarQube, Agile/Scrum

EXPERIENCE

Senior Software Developer — Infosys (May 2019 – Present)

Credit Card Benefits & Enrolments | UK (current) - Handle the credit card benefit and enrolments platform for a major FinTech client, delivering benefit configuration and customer enrolment journeys end to end. - Manage the development team and production incidents — triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

Client Setup application | UK — event-driven, non-blocking Vert.x microservice (Node.js-style async model). - Designed features from 400+ edge scenarios; built delete, revert and bulk update APIs handling 2,000+ records with cookie-based authentication. - 400+ BDD integration tests and unit tests, 98% code coverage.

NEO Web application | UK - Designed and delivered 10+ REST APIs across multiple modules; tuned a 20+ table database with indexing and views. - Delivered 4 modules in under 3 months across 3 failure-free releases; 5-star client feedback.

Open-banking software | UK - Architected 9 microservices implementing Consumer Data Standards for 3 major Australian banks; all regulatory audits passed.

Comms management & Identity verification | UK/India - Enhanced a communications platform (5,000+ OTP, 10,000+ notifications) and integrated identity verification providers (Mitek, Onfido, FrankieOne) into RESTful microservices supporting 1.6M+ customer onboarding.

Full Stack Developer (Software Engineer) — Tata Consultancy Services (December 2015 – May 2019)

Digital Health Administration Dashboard | India — healthcare administration software for a global healthcare technology client, used by 50+ hospitals. - Built component-based UIs and dashboards with **Angular 4**, JavaScript and Highcharts; bed management modules cut patient wait times by 40%.

Data report tool (POC) | India - Built a native web application where users select a database, tables and columns to generate visualized custom reports, secured via an enterprise cloud UAA service.

Aircraft Assets management (POC) | India - Created a full-stack web application for aircraft engine parts management with Java and Spring Boot.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
