

# Cheriyam Maman

## Senior Full Stack / MERN Stack Developer

- **Email:** cheriyansomaman@gmail.com
- **Phone:** 07878187343
- **LinkedIn:** <https://www.linkedin.com/in/cheriyankm>
- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

---

**Tailored for:** Senior Full Stack/MERN Stack Developer — Coddle Technologies (Bengaluru, Kerala, Kozhikode · ₹55–100k · Full-time)

## PROFILE

---

Full stack developer with 10+ years of experience building web applications and REST APIs across FinTech, healthcare, and aerospace domains. Deep experience designing and shipping production API services, with hands-on front-end work in JavaScript, TypeScript, HTML and Angular, and working knowledge of Node.js-style asynchronous, event-driven development through Vert.x and Kafka. Currently leading credit card benefit and enrolment delivery at Infosys, managing a team, incidents and daily agile activities. Quick learner ready to go deep on the MERN stack.

## KEY SKILLS

---

- **JavaScript ecosystem:** JavaScript, TypeScript, HTML, Angular; familiarity with React concepts and component-based UI
- **API & backend:** REST API design, JSON/XML/YAML, event-driven microservices (Vert.x, Kafka), Java, Spring Boot
- **Databases:** PostgreSQL, Aurora, Couchbase (document/NoSQL — comparable model to MongoDB)
- **DevOps & Tooling:** Docker, Kubernetes, Helm, Git/Bitbucket, Jenkins/TeamCity, AWS CloudWatch, Gradle, Maven
- **Quality & Testing:** TDD, BDD, Spock/Groovy, Wiremock, SonarQube, Fortify, Snyk, Swagger documentation
- **Ways of working:** Agile process, DevSecOps, Jira, Rally, PlantUML documentation

## EXPERIENCE

---

### Senior Software Developer — Infosys (May 2019 – Present)

**Credit Card Benefits & Enrolments | UK (current)** - Handle the credit card benefit and enrolments platform for a major FinTech client, delivering benefit configuration and customer enrolment journeys end to end. - Manage the development team and production incidents — triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

**Client Setup application | UK** — Researched and improved an event-driven Vert.x micro-service (asynchronous, non-blocking model closely related to Node.js). - Analysed over 400 edge scenarios and produced a realistic feature design; walked 10+ use cases through stakeholder approval. - Built delete, revert and bulk update APIs handling over 2,000 records with cookie-based authentication. - Wrote over 400 BDD integration test cases and unit tests achieving 98% code coverage.

**NEO Web application | UK** - Designed and established over 10 REST APIs for multiple modules; analysed a 20+ table PostgreSQL-family database and derived optimum performance with indexing and views. - Completed API development of 4 modules under 3 months across 3 failure-free releases; rated 5 stars for communication and problem solving under pressure.

**Open-banking software | UK** - Led development of open-banking software for 3 major Australian banks; architected 9 microservices implementing Consumer Data Standards (CDS), passing all regulatory audits. - Automated 5 manual release processes with Jenkins pipelines.

**Comms management & Identity verification | UK/India** - Enhanced communication management software (5,000+ OTP, 10,000+ notification requests) and integrated third-party identity verification services (Mitek, Onfido, FrankieOne) into RESTful microservices supporting 1.6M+ customer onboarding.

**Full Stack Developer (Software Engineer) — Tata Consultancy Services (December 2015 – May 2019)**

**Digital Health Administration Dashboard | India** — Healthcare administration software for a global healthcare technology client, used by 50+ hospitals. - Developed bed management modules reducing patient wait times by 40%. - Implemented user-friendly interfaces and dashboards with **Angular 4**, JavaScript and **Highcharts** data visualization.

**Data report tool (POC) | India** - Built a native web application for user-driven custom report generation with data visualization, secured via an enterprise cloud UAA service.

**Aircraft Assets management (POC) | India** - Created a web application to manage aircraft engine parts — component catalogue, maintenance schedules and parts ordering.

## EDUCATION

---

**Bachelor of Technology in Computer Science and Engineering** Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
