

Cheriyam Maman

Full Stack Developer

- **Email:** cheriyansomaman@gmail.com
- **Phone:** 07878187343
- **LinkedIn:** <https://www.linkedin.com/in/cheriyankm>
- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

Tailored for: Full Stack Developer — Metric Tree Labs (Kochi · Full-time · ₹240–360K/yr) *Requested skills:* Node.js, PostgreSQL, TypeScript, React.js

PROFILE

Full stack developer with 10+ years of experience delivering web applications and API platforms across FinTech, healthcare, and aerospace. Strong on **PostgreSQL**-backed REST services and asynchronous, event-driven backends (Vert.x/Kafka — the same non-blocking model as Node.js), with front-end experience in **TypeScript**, JavaScript, HTML and Angular, and familiarity with React's component model. Currently leading credit card benefit and enrolment delivery at Infosys, managing a team, incidents and the daily agile process.

KEY SKILLS

- **Databases:** PostgreSQL (indexing, views, performance tuning), Aurora, Couchbase
- **Languages & frontend:** TypeScript, JavaScript, HTML, Angular; familiarity with React.js concepts
- **Backend:** REST API development, JSON/XML/YAML, event-driven microservices (Vert.x, Kafka), Java, Spring Boot; exposure to Node.js-style async patterns
- **DevOps:** Docker, Kubernetes, Git/Bitbucket, Jenkins/TeamCity, AWS CloudWatch
- **Quality:** TDD, BDD, Spock, Wiremock, SonarQube, Swagger documentation
- **Ways of working:** Agile process, Jira, Rally

EXPERIENCE

Senior Software Developer — Infosys (May 2019 – Present)

Credit Card Benefits & Enrolments | UK (current) - Handle the credit card benefit and enrolments platform for a major FinTech client, delivering benefit configuration and customer enrolment journeys end to end. - Manage the development team and production incidents — triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

NEO Web application | UK - Designed and established over 10 REST APIs for multiple modules on a relational database. - Analysed a 20+ table database structure and derived optimum performance with **indexing and views**. - Completed API development of 4 modules under 3 months across 3 failure-free releases; rated 5 stars for communication and problem solving under pressure.

Client Setup application | UK — Event-driven Vert.x micro-service (asynchronous, non-blocking — directly transferable to Node.js). - Analysed 400+ edge scenarios, designed the feature and won stakeholder approval on 10+ use cases. - Built delete, revert and bulk update APIs handling 2,000+ records; 400+ BDD tests with 98% coverage.

Open-banking software | UK - Architected and developed 9 microservices implementing Consumer Data Standards for 3 major Australian banks; all regulatory audits passed.

Comms management & Identity verification | UK/India - Enhanced a communications platform (5,000+ OTP, 10,000+ notifications) and integrated identity verification providers (Mitek, Onfido, FrankieOne) into RESTful microservices supporting 1.6M+ customer onboarding.

Full Stack Developer (Software Engineer) — Tata Consultancy Services (December 2015 – May 2019)

Digital Health Administration Dashboard | India — healthcare administration software for a global healthcare technology client, used by 50+ hospitals. - Developed bed management modules reducing patient wait times by 40%. - Implemented user-friendly interfaces and dashboards with **Angular 4**, JavaScript/TypeScript and Highcharts.

Data report tool (POC) | India - Built a web application where users select a database, tables and columns to generate visualized custom reports, secured via an enterprise cloud UAA service.

Aircraft Assets management (POC) | India - Created a web application for aircraft engine parts management with Java and Spring Boot.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
