

Cheriyam Maman

Enterprise Software Developer (Java)

- **Email:** cheriyansomaman@gmail.com
- **Phone:** 07878187343
- **LinkedIn:** <https://www.linkedin.com/in/cheriyankm>
- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

Tailored for: Waypoint Systems FZCO — enterprise solution provider, Dubai Silicon Oasis (matched on Wellfound/AngelList, July 8, 2018)

PROFILE

Java developer with 10+ years of experience delivering enterprise-grade software for banks, healthcare providers and aerospace clients. Proven at integrating third-party enterprise systems (SOAP and REST), meeting regulatory compliance requirements, and leading teams through the full software delivery lifecycle. Currently handling a credit card benefits and enrolments platform at Infosys — managing the team, production incidents and daily agile operations.

KEY SKILLS

- **Enterprise backend:** Java, Spring Boot, Spring MVC, Vert.x, JPA, Hibernate, Tomcat, JBoss
- **Integration:** REST APIs, SOAP (Adobe SOAP API), Kafka & Schema Registry, JSON/XML/YAML, Swagger documentation, third-party vendor integrations (Mitek, Onfido, FrankieOne)
- **Databases:** PostgreSQL, Aurora, Couchbase
- **DevOps & security:** Docker, Kubernetes, Helm, Jenkins/TeamCity, Git/Bitbucket, AWS CloudWatch, SonarQube, Fortify, Snyk
- **Leadership & process:** Team management, incident management, Agile/DevSecOps, Jira, Rally, PlantUML/AsciiDoc documentation

EXPERIENCE

Senior Software Developer — Infosys (May 2019 – Present)

Credit Card Benefits & Enrolments | UK (current) - Handle the credit card benefit and enrolments platform for a major FinTech client, delivering benefit configuration and customer enrolment journeys end to end. - Manage the development team and production incidents — triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

Open-banking software | UK - Championed adherence to the Consumer Data Right (CDR) framework and established compliance procedures for open banking — successful audits with zero regulatory issues across 3 major Australian banks. - Architected and developed 9 microservices implementing Consumer Data Standards (CDS) specifications. - Automated 5 manual release processes with Jenkins pipelines, saving a 3-point story each sprint.

Comms management | UK - Enhanced communication management software using the **Adobe SOAP API**; set up 5,000+ OTP and 10,000+ notification requests with high reliability; troubleshoot memory issues, API errors and dependency failures in production.

Client Setup application | UK - Improved a Vert.x microservice: analysed 400+ edge scenarios, secured stakeholder approval on 10+ use cases, built bulk update APIs (2,000+ records) and achieved 98% test coverage with 400+ BDD tests.

NEO Web application | UK - Designed 10+ Spring Boot APIs; delivered 4 modules under 3 months, supported 3 failure-free releases and owned all defect resolution across multiple teams (5-star client feedback).

Identity verification adapters | India/UK - Integrated Mitek, Onfido and FrankieOne identity verification services into Spring Boot RESTful microservices, supporting 1.6M+ customer onboarding in 20 months.

Software Engineer — Tata Consultancy Services (December 2015 – May 2019)

- Developed and maintained healthcare administration software for a global healthcare technology client serving 50+ hospitals; bed management modules reduced patient wait times by 40%.
- Built a secure custom-report web application on a UAA-secured enterprise cloud service and an aircraft engine parts management platform with Java and Spring Boot.
- Front-end work with Angular 4 and Highcharts data visualization.

EDUCATION

Bachelor of Technology in Computer Science and Engineering Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
