

Cheriyam Maman

Senior Engineer — Java (Payments & Card Platforms)

- **Email:** cheriyansomaman@gmail.com
- **Phone:** 07878187343
- **LinkedIn:** <https://www.linkedin.com/in/cheriyankm>
- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

Tailored for: Software Engineering roles — American Express, Burgess Hill (Sussex House) / Brighton, UK
Local candidate — Haywards Heath is minutes from Burgess Hill. Skilled Worker visa sponsorship required (American Express Services Europe Limited is an active licensed sponsor).

PROFILE

Senior Java engineer with 10+ years in FinTech and payments, currently running a **credit card benefits and enrolments platform** for a major FinTech client at Infosys — the exact domain at the heart of American Express's membership model. Deep experience building regulated financial microservices (open banking, Consumer Data Standards), managing production incidents and teams, and driving the daily agile process. Based locally in Haywards Heath — on Sussex House's doorstep.

KEY SKILLS

- **Card & payments domain:** Credit card benefit configuration and customer enrolment journeys, OTP/notification platforms (5,000+/10,000+ requests), identity verification integrations (Mitek, Onfido, FrankieOne), open banking compliance (CDR/CDS)
- **Backend engineering:** Java, Spring Boot, Spring MVC, Vert.x, JPA/Hibernate, REST APIs, Kafka & Schema Registry, PostgreSQL/Aurora, Couchbase
- **Reliability & operations:** Incident management (triage, RCA, resolution), Grafana, New Relic, Honeycomb, AWS CloudWatch, production troubleshooting
- **Delivery & leadership:** Team management, agile ceremonies (stand-ups, planning, refinement, retrospectives), DevSecOps, code/design review, Jira/Rally
- **Engineering quality:** TDD/BDD (98% coverage), Wiremock, SonarQube, Fortify, Snyk, Docker, Kubernetes, Helm, Jenkins CI/CD

EXPERIENCE

Senior Software Developer — Infosys (May 2019 – Present)

Credit Card Benefits & Enrolments | UK (current) - Handle a credit card benefit and enrolments platform for a major FinTech client — benefit configuration and customer enrolment journeys delivered end to end. - Manage the development team and production incidents: triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

Identity verification adapters | India/UK - Integrated Mitek, Onfido and FrankieOne identity verification into Spring Boot RESTful microservices supporting a leading UK digital bank launch that onboarded 1.6M+ customers in 20 months.

Open-banking software | UK - Championed Consumer Data Right (CDR) compliance for open banking across 3 major Australian banks — successful audits, zero regulatory issues. - Architected and developed 9 microservices implementing Consumer Data Standards (CDS) specifications.

Comms management | UK - Enhanced communication management software (Adobe SOAP API); set up 5,000+ OTP and 10,000+ notification requests; troubleshoot memory issues, API errors and dependency failures in production.

Client Setup application | UK - Improved a Vert.x microservice: designed from 400+ edge scenarios, built bulk update APIs (2,000+ records), 400+ BDD tests at 98% coverage, and introduced a PlantUML/AsciiDoc documentation culture.

NEO Web application | UK - Designed 10+ Spring Boot APIs; delivered 4 modules in under 3 months across 3 failure-free releases; owned all defect resolution across multiple teams (5-star client feedback).

Engineering platform work - Directed Docker/Jenkins CI/CD configuration (deployment time –30%); incorporated SonarQube, Fortify and Snyk (vulnerabilities –30%); led Wiremock adoption (testing time –40%).

Software Engineer — Tata Consultancy Services (December 2015 – May 2019)

- Developed healthcare administration software for a global healthcare technology client serving 50+ hospitals; bed management modules reduced patient wait times by 40%.
- Built Angular 4 + Highcharts dashboards, a UAA-secured custom report tool, and an aircraft engine parts management platform (Java, Spring Boot).

EDUCATION

Bachelor of Technology in Computer Science and Engineering Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
