- **Address:** Flat 8 Pinfold House, Great Heathmead, Haywards Heath, UK, RH16 1FF

Tailored for: Software Engineer III / Senior Software Engineer (Java) — JPMorgan Chase, UK (London / Glasgow / Bournemouth) *Skilled Worker visa sponsorship required — JPMorgan Chase Bank is an active licensed sponsor (1,584 workers sponsored in 2024).*

PROFILE

Senior Java engineer with 10+ years in regulated financial services. Delivered production microservices for a **leading UK digital retail bank launch that onboarded 1.6M+ customers in its first 20 months**, built open-banking software passing regulatory audits across three major banks, and currently run a credit card benefits and enrolments platform — managing the team, production incidents and the daily agile process. Strong on engineering rigour: TDD/BDD at 98% coverage, DevSecOps pipelines, and security scanning baked into CI/CD.

KEY SKILLS

- **Languages & frameworks:** Java (expert), Spring Boot, Spring MVC, Vert.x reactive microservices, JPA/Hibernate
- **Distributed systems:** REST APIs, Kafka & Schema Registry, event-driven architecture, microservice design (9-service open-banking estate)
- **Cloud & platforms:** AWS CloudWatch, Docker, Kubernetes (k8s/k9s), Helm, Jenkins/TeamCity CI/CD, Tomcat/JBoss
- **Data:** PostgreSQL, Aurora, Couchbase; schema analysis, indexing and performance tuning
- **Quality & security:** TDD, BDD, Spock, Wiremock, SonarQube, Fortify, Snyk; regulatory compliance (Consumer Data Right/Standards)
- **Observability & operations:** Grafana, New Relic, Honeycomb; incident triage, root-cause analysis, production support
- **Leadership:** Team management, agile process ownership, stakeholder communication, PlantUML/AsciiDoc design documentation

EXPERIENCE

Senior Software Developer — Infosys (May 2019 – Present)

Credit Card Benefits & Enrolments | UK (current) - Handle a credit card benefit and enrolments platform for a major FinTech client, delivering benefit configuration and customer enrolment journeys end to end. - Manage the development team and production incidents — triage, root-cause analysis, resolution and stakeholder communication. - Handle daily activities of the agile process: stand-ups, sprint planning, backlog refinement, retrospectives and release coordination.

Digital retail bank | UK - Integrated third-party identity verification services (Mitek, Onfido, FrankieOne) into Spring Boot RESTful microservices for a leading UK digital bank — 1.6M+ customers onboarded within 20 months of launch.

Open-banking software | UK - Championed Consumer Data Right (CDR) compliance and established open-banking procedures for 3 major Australian banks — successful audits with zero regulatory issues. - Architected and developed 9 microservices implementing Consumer Data Standards (CDS) specifications. - Automated 5 manual release processes with Jenkins pipelines, saving a 3-point story per sprint.

Client Setup application | UK - Improved a Vert.x reactive microservice: 400+ edge scenarios analysed into an approved design, bulk data APIs (2,000+ records), 400+ BDD tests with 98% coverage, PlantUML/AsciiDoc documentation culture.

NEO Web application | UK - Designed 10+ Spring Boot APIs; delivered 4 modules in under 3 months across 3 failure-free releases; owned defect resolution across multiple teams (5-star client feedback).

Engineering platform work - Directed Docker/Jenkins CI/CD configuration (deployment time –30%); embedded SonarQube, Fortify and Snyk into pipelines (vulnerabilities –30%); led Wiremock adoption for external integration testing (testing time –40%); drove Agile + DevSecOps across the SDLC (development efficiency +20%).

Software Engineer — Tata Consultancy Services (December 2015 – May 2019)

- Developed healthcare administration software for a global healthcare technology client serving 50+ hospitals; bed management optimisation cut patient wait times by 40%.
- Built Angular 4 + Highcharts dashboards, a UAA-secured report generation tool, and an aircraft engine parts management platform (Java, Spring Boot).

EDUCATION

Bachelor of Technology in Computer Science and Engineering Cochin University of Science and Technology, Kerala, India — June 2011 – June 2015
